Soft & Quiet®

Soft & Quiet is an unique technology based on composition of high quality foams and joints providing very silent table operation. Application of selected and durable components ensures high therapy comfort, durability and high resistance to deformation.

Advantages of the system: high therapy comfort, durability of the tabletop, high resistance to deformations.

STRONG & SAFE®

Strong & Safe is an exceptional, complex system of the production process, maintaining highest quality standards. The system includes conceptual works, designing, constructing and selection of the components. Strong & Safe system enables to achieve exceptional results in terms of solidity, resistance and safety of the products.

Advantages of the system: highest stability, exceptional resistance, long durability, complete work safety for therapists and their clients.

FAST LOCK™

Fast Lock is a system for quick and easy height adjustment of the table. Operated by simply pressing the snap-fasteners, there is no need to unscrew knobs. The system is a perfect solution for dynamic and variable working conditions.

Advantages of the system: quick and easy height adjustment of the table.

TRIPLE STABILO™

Triple Stabilo is an unique system of reinforcement by means of additional leg in central part of tabletop. The table equipped with such system ensures perfect stability on the entire surface even at very high point pressures. Triple Stabilo technology was designed for therapists who require reinforced and unquestionable stability.

Advantages of the system: stability of the entire tabletop's surface even at very high point pressures, 450 kg of dynamic resistance.

XLOCK™

X Lock is an innovative construction system where two X-shape elements are responsible for stabilization.

Advantages of the system: exceptional stability of tabletop on its entire surface, easy access from every side of the table .

I use the Aero from Habys for my daily business as a mobile therapist, which means 5-8 times put up an fold every day, since 2 years. The Aero is still in perfect condition. As mobile therapist i was focusing on a stable but light massage table and I got a recommendation from a colleague. Together with the backpacker-bag it fits perfect in my Smart for two and is perfect in the small car - no other massage table fits in! If I would recommend the Habys Aero? Yes, definitely!

Claus Lehner - mobile medical Therapist in Vienna, Austria

Un materiel acheté en 2008 et toujours aussi efficace! Ma chaise est toujours adaptable quelque soit la situation. Merci Habys!

Pier Cordas - BELP bien être et lacher prise, France

Wir sind begeistert! Von Verarbeitung und Haltbarkeit, Design und Funktionalitäten und natürlich auch vom Preis! Für uns steht fest: immer wieder Habys!

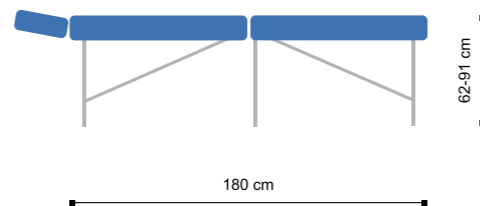

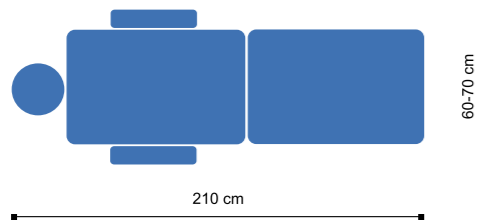

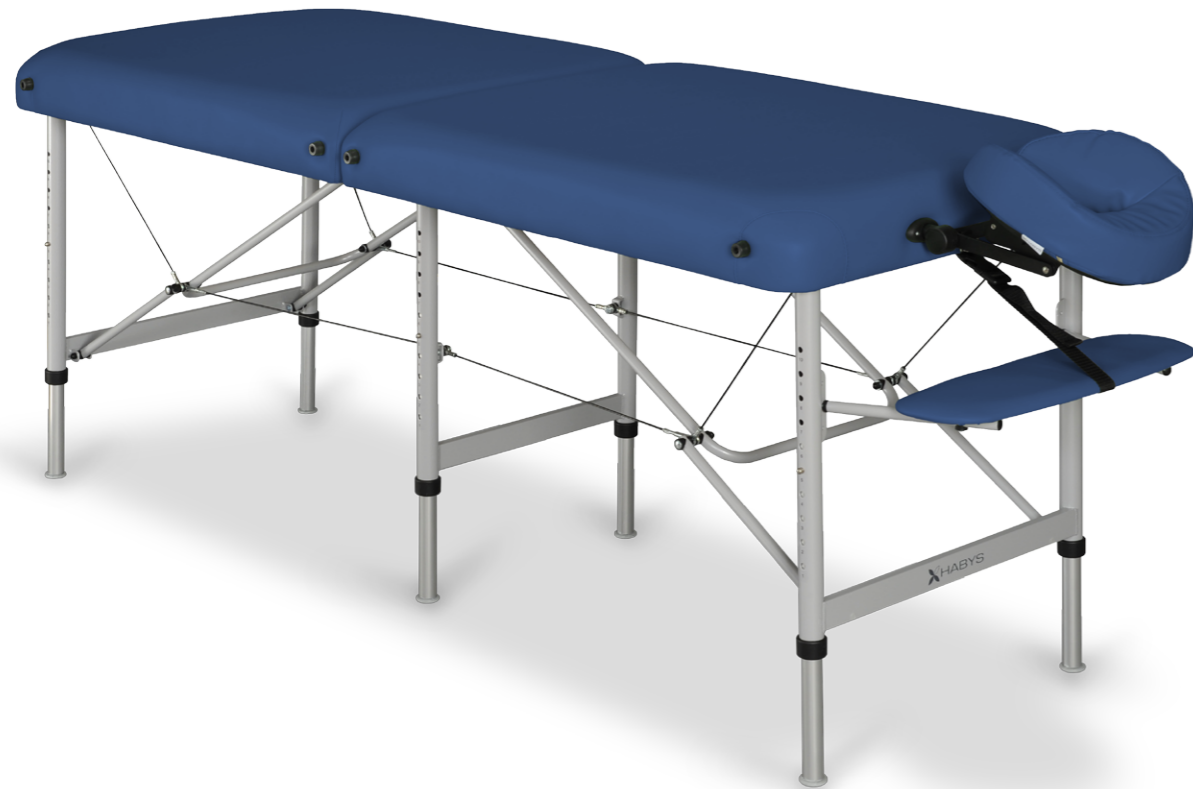

Simone Bernhard - Praxis Plan B, Germany

Je suis très satisfaite de ce matériel. La qualité de finition est bonne et la table est solide et très confortable. La manipulation des changements de position est très aisée. Le paiement s'est fait par le site sécurisé PAYPAL sans aucun problème.

Valérie LACKER - Kinésiologue, France

Description:

Medmal is the most stable HABYS table made in the highest standards. Perfectly elaborated, with additional stabilizing leg, dedicated to manual therapies, sport massages, rehabilitation and therapeutic treatments. The table is a bestseller among many massage teachers, physical therapists and professionals. Maximum table stability results inter alia from application of three legs, high crosswise battens reinforcing the frame of the table tops and anti-slip feet. Homogenous, welded construction stabilized by means of steel plated cables with resistant joints is adapted to loads amounting as much as 450 kg.

Features:

- 1 unique Triple Stabulo system, exceptional stability due to additional stabilizing leg,
- 2 450 kg of dynamic load,
- 3 5 cm comfortable foam resistant to deformations
- 4 5-year warranty on the frame
- 5 fast-lock system, quick and easy height adjustment

Other aluminium tables:

Panda Al

Smart

Feldenkrais

Cranio-Sacral

Description:

Aero is a double-segment aluminium table of exceptionally light construction, compact dimensions and easy adjustment, created for mobile massage therapist. It is convenient during transport and it's perfect for air travels. Aero was created in cooperation with physical therapists – representatives of the national teams.

Features:

- 1 ultralight and durable aluminium frame,
- 2 modern design of the table legs with a round cross section,
- 3 2,5 cm comfortable foam resistant to deformations
- 4 fast-lock system, quick and easy height adjustment
- 5 aesthetically rounded corners of the table top.

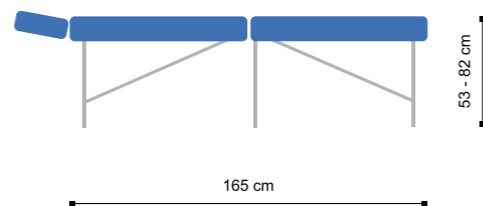

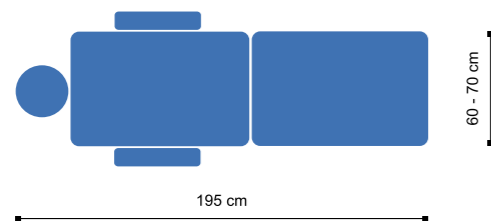

Other ultralight tables:

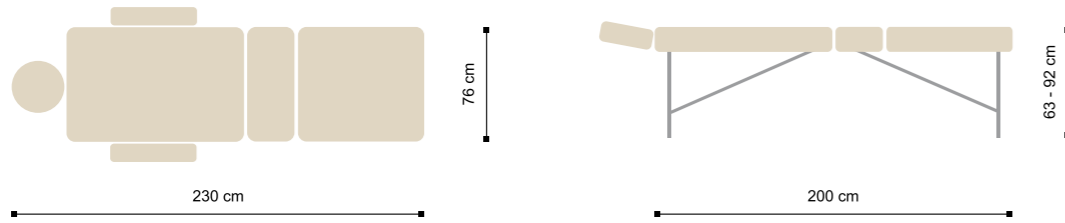

Aero Plus

Aero Stabila

Description:

Gallo Plus is the most comfortable Habys table made of the natural beech wood. The table has an additional liftable third segment of the table top and is perfectly suited for cosmetic treatments, reflexology and other massage treatments requiring lifting of the chosen body part of the patient. The table top has been made with the use of three-layer foam with diversified elasticity of the total thickness of 5 cm. Length of the table top amounting to 200 cm and its width 76 cm, provides space necessary to execute a fully comfortable massage.

Features:

- 1 additional liftable segment of the table top,
- 2 high comfort due to the dimensions of the table 76x200 cm,
- 3 retreated to the inside of the table, which facilitates the access to the patient,
- 4 comfortable foam with diversified elasticity of the thickness 5 cm.

Other wooden tables:

Face Rest 2D ERGO

It has the ideal shape for the anatomy of the face. Adjustable in two planes. Due to the anatomical forms and high elastic memory foam, long procedures are performed in a unique comfort. This effect is possible thanks to the evenly distributed pressure force of the face on the 2D headrest.

Comfort face hole

Convenient Lux face hole constitutes a supplement or an alternative for a face rest. It enables to reduce the weight of the entire set by the weight of the headrest, namely by about 1 kg.

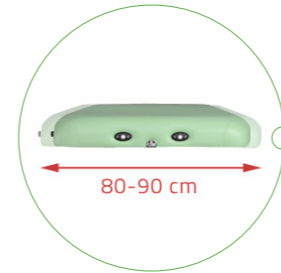

Table top 80 or 90 cm wide

Table top with increased width to 80 or 90 cm.

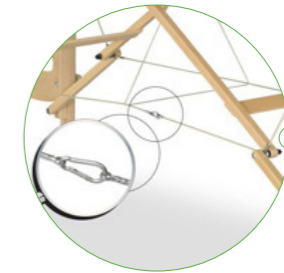

Table-mattress option

The option "Table-Mattress" allows for using the table as a typical mattress. Specially adapted system of cables enables to fold the table top with its entire surface on the floor.

Standard Front Shelf

Comfortable front shelf with adjustment of height and inclination angle. Improves access to the back and lateral part of the upper body and provides additional support for the arms of the Client.

Versatile Table Extender

The extender can be attached to the front or back of the table. Dual functionality provides: improved access to shoulders as well as additional support for the shoulders, access to the face or foot of the Client.

Option Reiki

Thanks to the raised profile of the plywood, the masseur may adopt a comfortable position on the seat during the massage of the face or legs by placing feet under the table top. Option is available for wooden tables.

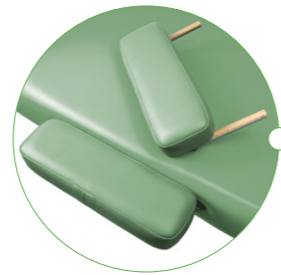

Carry Case with Your advertisement

Think of advertising Your services and we will print it in the most visible place on the bag! This way you will attract attention of new potential customers!

Simply Front Shelf

Easy and mobile. Improves access to the shoulders and to the lateral part of the upper body, and ensures additional support for the arms of the Client. Attached to the frame of the headrest.

Side armrests

Widen the table by 20 cm in the area of Client's arms. Especially recommended for tables with a smaller width for greater massage comfort. Easy to assemble, adapted to the table by using a sliding bracket system.

Ultralight Side armrests

Widen the table by 20 cm in the area of Client's arms. Especially recommended for tables with a smaller width for greater massage comfort.

Recommended for Aero tables.

Paper Roll Holder

Practical, adjustable, mobile, easy to assemble and disassemble roll holder for disposable paper sheets on rolls of the widths from 50 to 70 cm. It's perfectly adapted to the table by using a sliding bracket system.

City carry case

City organizer

City carry case

Modern, comfortable, functional and resistant carry case in graphite – pistachio colouring. Made of material resistant to folds and dirt, perfectly secures the table against damaging during transport and storage. It has 4 roomy pockets, shoulder strap, transport handle, stiffened bottom reinforced with durable, waterproof material, reflective elements.

convenient shoulder strap filled with foam

reflective elements increasing safety

bottom of the case reinforced with durable, waterproof, non-slip, dirt-resistant rubber material

joints made with the use of double stitch with a border

Standard carry case

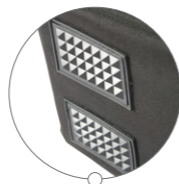

Comfortable, made of durable material, prevents damage to the table during transportation. It has a spacious pocket, shoulder strap, comfortable handles, stiffened bottom and feet for increased durability and resistance to dirt.

convenient shoulder strap filled with foam

reflective elements increasing safety

Stiffened bottom, secured with solid feet

Straps strengthening and stiffening the case

Simply carry case

The lightest of the cases, comfortable, prevents damage to the table during transportation. It has a shoulder strap, a transport handle and a bottom with feet. The Simply carry case is distinguished by: durable, solid material, durable transport handles and embroidery, solid zipper lock, lined with protective material

Backpack Option

Additional functionality which allows the carrying on the back like a traditional backpack. Straps have comfortable filling and adjustment which enable to adapt the length to masseur's height.

Wheels Option

The wheels for the cases facilitate transport on flat surfaces and additionally protect the underside from dirt and damage. The wheels are made of special rubber and attached to a strong metal construction. Two of the four wheels are rotating, what makes transport significantly easier.

Table cart

Practical, solid, manoeuvrable, properly balanced, folding trolley is dedicated to easy transport of the massage table. Large diameter rubber wheels perfectly deal with terrain irregularities.

Description:

Comfortable, three-segment couch with height adjustment, dedicated to massage and beauty salons with many possibilities for table positioning. Double table breaking allows the patient to be held according to the needs of the treatment to be performed. Covered with a comfortable foam structure, provides patient complete comfort during the treatment, enabling full relaxation.

Features:

- 1 1st class natural beech wood,
- 2 solid top with rounded corners,
- 3 Comfortable foam composition resistant to deformations
- 4 practical shelf for cosmetics and accessories.

Other wooden couches:

Evero X7 Integra

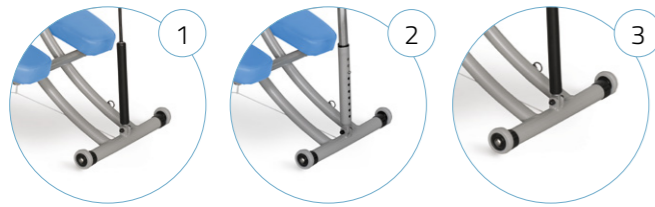

Description:

Prestige-Reh is a comfortable and functional massage chair, perfect for Work-Site techniques. Prestige-Reh is perfect for massage of the spine and other parts of the back.

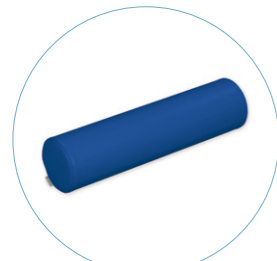

The chair allows for multi-plane adjustment of the face rest and arm shelf, as well as broad adjustment of the chair height and inclination angle. The possibility of adapting the chair to the posture of any patient facilitates access to proper parts of the muscles, enhancing efficiency of the given treatment and the patient's comfort. The chair construction enables execution of the massage almost in all conditions. Installation of the device is easy and convenient, and the treatments require little space. Specialized transport wheels ensure efficient transport of the chair and a dedicated cover enables to additionally protect it during transport.

- 1 height adjustment by means of the gas spring,
- 2 telescopic height adjustment by means of snap fasteners,
- 3 wheels facilitating movement.

Round bolsters

Especially recommended for massage of the back of lower limbs, back, face, abdomen, chest and foot reflexology.

The use of the bolster causes relaxation of the tense muscles, the fascia, the ligaments and the joint capsules in the area of the lower limbs and the back, ensuring a comfortable course of the massage.

Cubes

Cubes are indispensable during massage, rehabilitation and corrective gymnastics.

Used to support patient's knees, feet, arms and shoulders.

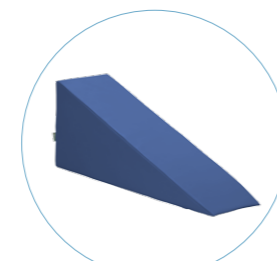

Enable to relax the tension of tissue structures such as muscles, fascia, ligaments, tendons, joint capsules - ensuring comfort and relaxation during therapy.

Semi-round bolsters

Perfect for massage of the back of lower limbs, back, face, abdomen, chest and foot reflexology.

Greatly relieves muscle tension, fascia, ligaments, tendons and joints in the lower limbs and back, ensuring a comfortable course of the massage.

Wedge 70x24x30

A plenty of shapes and sizes allows to use a wedges for many ways. Using a wedge You can put the lower limb in safe and stabile position. As a results the tension of knee and hip flexors are lower. The wedge makes a blood and lymph outflow easier.

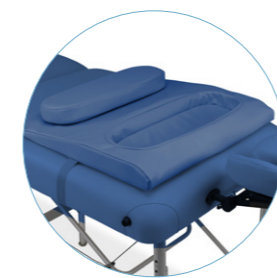

Height: 30 cm
Length: 70 cm
Width: 24 cm

Pregnancy Massage Bolster Set

The set includes adjustable headrest and comfortable cushion. The practical complement of the kit is a dedicated transport case.

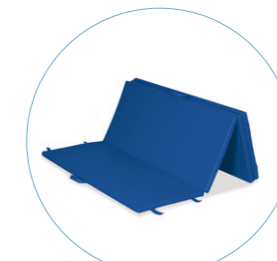

A set designed for pregnancy massage, which helps to improve the position of the woman during the massage. Set provides complete comfort both on the side as well as on the stomach, improving the effectiveness of the massage and making it easier to perform. Made of foam with optimum elasticity and resistance to deformation.

Breasthole Wedge Bolster

Addition to the massage table, which improves the effectiveness and comfort of the massage of the women with large breasts and women after beauty operations. It allows the correct position of the patient on the table and ensures the relaxation of the back muscles when lying on the stomach.

The surrounding belts prevent the movement of the wedge bolster during the massage and the possibility of folding ensures comfortable storage and transport of the product.

Four - part folding mattress Shiatsu

Recommended for Shiatsu massage, general and corrective rehabilitation.

Thanks to the ability to fold into a handy suitcase with a practical cover, the mattress is very comfortable to carry and store.

Dimensions after unfolding: 200x120x3 cm
Dimensions after folding: 120x50x12 cm
