

LANDSCAPING SOLUTION

LEVIDIA – SKOPJE, MACEDONIA

WHO WE ARE

LEVIDIA Skopje is established in 2012 as direct Turkish investment in Macedonia. Our core business is production of fruit and landscaping trees, landscaping and hardscaping design, and complete implementation; i.e. turn-key solution.

Up to now we have accomplished several projects like:

- **Yahya Kemal , school in Skopje**
- **Private houses in Skopje**
- **Villa in Krushevo**
- **Hotel Opera House in the center of Skopje**
- **Restaurant: Venetto in City MALL - Skopje**
- **Factory Marquardt Automotive – Veles**
- **Factory Kostal Automotive – Ohrid**

Levidia has selling point in Vizbegovo, Skopje (Garden center on the way to Kosovo) with wider range of ornamental and decorative deciduous / evergreen trees lead by the landscaping architect and forest engineers which can offer unique landscaping solutions to our clients.

We are looking forward to cooperate with you!

LEVIDIA TEAM

SCOPE OF OUR SERVICES

- 1. Earthworks: Excavation, backfilling, cleaning and transportation of the excess material.**
- 2. Installation and Piping: Underground installation of electrical cables, underground installation and distribution of the sewage, rainwater, drainage and water for irrigation, irrigation system, installation of manholes and hand holes.**
- 3. Superstructure: Asphalt road, concrete pavers, docking areas for loading/unloading of trucks, pedestrian roads.**
- 4. Fencing.**
- 5. Landscaping and horticulture.**
- 6. Erosion control and hydro-seeding.**

Our team of Architects and Construction engineers works tightly with the electrical and mechanical department of our mother company Novatek and makes the implementation of the project to run in constant synchronization between one and another position.

We are fully equipped with all necessary mechanization: baggers, loader, soil compactors, trucks which makes the earth work and preparation of the sub-soil for asphaltting and concreting easier and faster.

Earthworks, underground installation and piping
